ators in New York. Each patrolman is to ascertain if there are any of these persons on his beat and turn in the names of such to his precinct commander, who will send them to the Detective Bureau. MORE THAN 11,000 ANARCHISTS

HERE, SAYS BERKMAN. Inspectors have been ordered to nstruct all precinct commanders to pay particular attention to the protection of churches, public buildings and the homes of Judges and city officials. Every public building in the city is under guard day and night and Judges who are known to have ncurred the open enmity of Anarchsts or criminals are under the care of detectives.

Alexander Berkman told an Evening World reporter a few months ago that there are between 11,000 and 12,-000 avowed Anarchists in this city. Most of these are enrolled and are regular attendants at meetings. A heavy percentage of the rank and file of Anarchists lives on the East Side, downtown or in Harlem.

Owen Eagan, Inspector of Combusibles, and known'as the bomb expert. said to-day that not two of the twenty bombs set off in this city during the past month were constructed

'One would conclude," said Eagan, that the bombs we have been bothred with during the past thirty days have been made by as many different gangs. It would be natural to suppose that if one or two gangs of destructionists were operating throughout the city there would be a uniformity in the make-up of their engines of death.

I find the bombs of the past thirty days divided into three classes. Generally speaking, the powder bomb seems to be the most 'popular.' Perhaps this is because plain powder is easier to obtain than either dynamite

easier to obtain than either dynamite or chemicals.

"The dynamite bombs are not made from explosives of that class purchased in this State, for we have a very stringent law which prohibits the sale of dynamite to any but responsible persons. New Jersey seems to be an open market for dynamite. Again we have traced dynamite found in an east side barber shop to Callfornia.

"The bomb exploded in St. Patrick's Cathedral was made of dynamite; those of the Bronx County Courthouse were of chemicals, and the Tombs bomb was filled with black powder.

"The Tombs bomb seems to be a new idea. It resembles somewhat in mechanism the bomb planted in the Italian Consul General's office at No. 215 Lafavette Street last April."

A western politician, well known on account of his baldness and ready wit, surprised his friends by appearing with a new growth of hair. Many of his old friends did not know him and others thought he had a wig. On being asked how he did it, he made the following statement: "I attribute the remarkable growth of soy hair to the use of the following simple recipe which any lady or gentleman can mix at home: To a half pint of water add 1 oz. of bay rum, a small box of Barbo Compound and 1/4 oz. of glycerine. Apply to the scalp two or three times a week with the finger tips. It not only promotes the growth of the hair but removes dandruff, scalp humors and prevents the hair from falling out.
